

After hours veterinary emergency centre.

The After Hours Veterinary Emergency Centre (AHVEC) is an emergency veterinary hospital located in North Hobart. We provide an out-of-hours emergency veterinary service to Hobart and the surrounding areas. This means we work nights, weekends and public holidays.

We are always in need of life saving feline and canine blood donors to save the life of ill or injured animals.

Ideal canine blood donors are a large size (>25kg), healthy (not currently on medication), vaccinated, middle aged (between 2-8years old) and have a calm temperament.

Ideal feline blood donors are over 4.5kg, are healthy, vaccinated, between 2 and 8 years of age. The temperament is not as important.

Do you think one of your family pets would be a suitable donor dog? If so then we want you!

If you would like more information or are interested in your dog becoming a blood donor, please fill out the form below and either email or post it back to us and we will contact you to discuss this opportunity further.

Kind regards,

After Hours Veterinary Emergency Centre

If you are interested in your dog becoming a life-saving blood donor, please fill out the form below and either post to AHVEC or send an email (admin@ahvec.com.au).
